PROJECTS

Pakistan Job Market Analysis

Excel | Python (Pandas, NumPy) | Power BI

- Analyzed ~6,680 job postings to identify hiring trends, experience demand, and regional distribution.
- Cleaned and standardized unstructured data and built a Power BI dashboard visualizing city-wise, department-wise, and job-type insights.

Customer Churn Analysis & Prediction

Python | Pandas | Scikit-Learn | Matplotlib

- Performed EDA and preprocessing on ~7,000 telecom records, including feature engineering and scaling for ML.
- Trained and evaluated a classification model, identifying key churn drivers such as contract type, tenure, and monthly charges.

Grocery Inventory & Sales Analysis

SQL | Power BI | Excel

- Cleaned and transformed inventory and sales data using SQL, creating reusable views for low stock and expiry monitoring.
- Developed a Power BI dashboard with KPIs and category trends to support inventory planning and operational decisions.
